spring field trip production

LOST & FOUND

By John Bowhers & Harry Poster Music by Colin Allured

April 15-30 (Available Wednesday-Friday at 10:30 a.m.)

\$6 (tax included) per child; Title 1/ Head Start discount available upon request.

Follow the journey of two young siblings as they venture into an imagined world where all lost things go. Using a musical landscape and everyday objects, Lost & Found explores what children do best: turning ordinary surroundings into extraordinary adventures.

year-round performance-based lessons

WRITER'S BLOCK

Literature, Writing - Kindergarten, 1st, and 2nd grades

The bestselling author, Casey Emerson, is at it again to bring another thrilling work of literature to your classroom. Only, writer's block has hit, and our hero doesn't know how to end the story. Can you help our author fill in the blanks and get this book to press on time?

NIGHT AND DAY

Science - Kindergarten, 1st, and 2nd grades

Two very different insects wake up each morning to find their homes altered. Now it's time to solve the mystery of why their habitats keep changing, leading them to explore places and times they've never seen before. Can you help the bugs find out who's been bugging them?

THE CURATOR'S CRISIS

Compare/Contrast, Synthesizing Information - Kindergarten, 1st, 2nd, and 3rd grades

A famous work of art has been stolen! The curator of an art museum has a problem to solve, but can't decide which detective to call in for the job. Enjoy this performance where we'll follow two very different detectives down the path to finding the thief, and afterwards compare and contrast their methods.

WHAT GOES UP... (AVAILABLE NOV 1ST)

Shapes, Physics - Pre-K and Kindergarten

Two architects are at it again to find out who can build the sturdiest structure! Watch as they test their creations, and help them decide which building can stand up to challenge and which building must come down.

THE MAGICIAN AND THE MOON

Visual Arts, Science - Kindergarten, 1st, 2nd, and 3rd grades

CMWS presents an interactive and educational light and puppet show, performed using overhead projectors. Input from the audience helps the Magician teach the Moon all about colors and how they change when mixed together. In return, the Moon teaches the Magician how to refract light.

FOR COMMON CORE STANDARDS, DOWNLOAD THE EDUCATOR'S GUIDE AT CHILDRENSMUSEUMOFWS.ORG
