December 2017

Open through December 30

What does it take to create a video game, line up rhythms like the best DJs, or design a roller coaster that produces the biggest thrills? In DESIGN ZONE, go behind the scenes and see how creative problem solvers use math to do amazing things. DESIGN ZONE explores mathematical concepts like patterns, variables, scale, slope, and ratios used by artists, architects, engineers, musicians and other innovators.

DESIGN ZONE was produced and is toured by the Oregon Museum of Science and Industry. This exhibit was made possible by a National Science Foundation (NSF) grant.

Winter Day Camps

Classic Super Heroes

Wednesday, December 27, 9 am - 4 pm

Explore physics, technology, biology, and earth science through science fiction with classic comic book superheroes.

Dog's Best Friend

Thursday, December 28, 9 am - 4 pm

You don't have to be a dog lover to enjoy this camp. We will meet and learn about lots of animals from exotic pocket pets to trusty canine companions.

Wizard Wonderland

Friday, December 29, 9 am - 4 pm

Uncover the scientific secrets of all things wizardly. We will experiment with chemistry and light and even learn about mythical beasts.
